USER MANUAL

FATBOY® TRANSLOETJE

Product information

Transloetje is a wireless lamp with a built-in rechargeable battery and is available in different colours. The light source is a double LED filament emitting 2700 K (warm white) light. The lamp is protected from dripping water and is equipped with a micro-usb connection. The adapter provided is suitable for 100 to 240 VAC power supplies (50/60Hz). A fully charged lamp remains lit for more than 8 hours (at 100% brightness).

INSTRUCTIONS FOR USE AND MAINTENANCE

First time use

- Before packing, the lamp is put in sleeping-mode to save energy during transportation. In order to activate it, insert the micro-usb plug into the slot at the bottom of the lamp and connect the adapter into a power socket. The lamp is activated in a short while and will fully function now.
- We recommend charging the battery for at least 8 hours, when first time use.

General use

- Charging the lamp. Insert the micro-usb plug into the slot on the bottom of the lamp. Plug the adapter into the wall socket.

It will take approximately 3 hours to fully charge the lamp. There is an indicator light located next to the micro-usb slot. While the battery is charging the light will flash. When the battery is fully charged it will remain lit.

- Please use the adapter only for charging. Do not keep Transloetje attached to the charger during general use.
- The lamp can be controlled by touching the base of the lamp right above the box. To adjust the brightness:
 - Starting position: the lamp is switched off.
 - Touch the base once: the light will turn on at 15% brightness.
 - Touching it a second time: 50% brightness.
 - Touching it a third time: full brightness.
 - And at the fourth time the light will turn off.

To switch on Transloetje, please
tap the base of the lamp right
above the box with two fingers.

- Charge the lamp when it stops lighting up.
- If the battery does not charge anymore please contact your Fatboy® dealer. Never try to replace the battery yourself.

Maintenance

- Clean carefully with soft cloth and lukewarm water (if necessary with soft soap).
- Do not use any cleaning materials that contain chemicals.
- Never open the lamp while cleaning it.
- If you don't use the lamp for a longer period of time please make sure you recharge it at least every three months to keep the battery in good condition.

WARNING!
READ CAREFULLY BEFORE USE!

- Only use the AC adapter enclosed.
Using a different power adapter may cause irreparable damage to the lamp.
- Make sure you connect the micro-usb connector in the right way to avoid damage.
Please see sticker attached to the wire.
- Place the lamp on a dry, horizontal surface.
- Do not expose the lamp to excessive heat from heat sources.
- The lamp is intended for indoor use, but can be used outdoors without adapter. Protect it against water and store inside after use.
- Check the voltage of your power supply. The voltage must be between 100 and 240 V AC.

- Inspect the cable on the provided adapter for damage.
- When the lamp is switched on, do not stare in the light source. It may harm the eyes.
- This is not a toy, keep away from children.

TROUBLE SHOOTING

- The lamp does not work:
 - Check connection with adapter.
 - Check if the battery is charging.
 - If the lamp no longer works, it is probably unsuitable for use.
- Never attempt to repair the lamp yourself.

Important! Please contact your Fatboy® dealer if you have any problem.

TECHNICAL SPECIFICATIONS

Model: Transloetje

Primary rating (adapter): 100-240 V AC,
50/60 Hz

Secondary rating (charging): 5V DC, 500mA

Safety Class: Class III

Connection: Micro-USB, type B

Light source: 2 x 1 Watt LED filament

Switch: built-in touch switch/dimmer (3 dimmer
positions)

IP value: 21 (protected from dripping water)

Ambient temperature: -10 to 40 °C

Materials: Polycarbonate (body)

Internal battery: Li-PO 1500 mA

Dimensions: 16.5 cm (diameter), 26 cm (height)

Total weight: ± 0.5 kg

Important! This luminaire contains a LED light source, which cannot be replaced by the end user. When the light source reaches its end of life, the whole luminaire needs to be replaced.

CE-DIRECTIVE

This product complies with the requirements and other relevant provisions of the current European RoHS and CE directives 2011/65/EC, 2004/108/EC and 2006/95/EC
